Value Added Proposal

When selling privately based upon a Mapsite, you handle your own real estate industry adjacent marketing. That enables you to use three distinct angles to show buyers exactly how value added might be generated covering financial and lifestyle motifs:

1. Instant Rental Revenue = Passive Income

- Tiny Homes are tools to offset financing or a mortgage that operates on roughly 10% of the electricity of a standard house - overhead is incredibly low.

2. Multi-Generational Living = Independence

- A "bunkhouse" or "mother-in-law suite" means absolute privacy for aging parents or adult children, who might otherwise be priced out of traditional housing markets.

3. Remote Work Sanctuaries = Enhanced Work-Life Balance

- Detached, professional home offices or creative studios maintain the separation of work and home life without the hassle or cost of a commercial lease.
